

# Fuego

Rak-Su

Rak-Su, Rak-Su

Three missed calls in the morning  
Two other girls I'm ignoring  
One AM in the club and I'm looking for you (baby)  
Text you and saw that you read it  
I want you back, now I said it  
Been speaking to strangers because they remind me of you

And I, I been talking to someone new  
I try but it's nothing compared to you  
And you, you been talking to someone, too  
But he doesn't get you like I do

See, I'm no good with the lingo, no  
But I can say you are mi amor  
And keep our love fuego, keep our love  
Let's not complicate it, no  
Light up to an inferno  
And keep our love fuego, keep our love fuego  
And keep our love fuego, keep our love fuego  
Said keep our love (keep our love, keep our love)  
Keep our love (light it up, light it up)  
Keep our love fuego, keep our love fuego

You can talk to me in Spanish  
You know I don't understand it  
I'll read your list 'cause you know that I need 'em tonight  
Right after shots of tequila  
We're going up on sativa  
And we ain't coming down  
We ain't coming down, down, down

And I, I been talking to someone new  
I try but it's nothing compared to you  
And you, you been talking to someone, too  
But he doesn't get you like I do

See, I'm no good with the lingo, no  
But I can say you are mi amor  
And keep our love fuego, keep our love  
Let's not complicate it, no  
Light up to an inferno  
And keep our love fuego, keep our love fuego  
(Keep our love, keep our love  
Light it up, light it up)  
And keep our love fuego, keep our love fuego  
Said keep our love (light it up, light it up)  
Keep our love fuego, keep our love fuego
