

Over & Over

Rak-Su

Over and over and over and over again

I'm a trainwreck and you are a mess
I'm off the rails and you're off of your meds
I'm a trainwreck but nevertheless
I'll come on over and I'll hope for the best

Déjà vu, yeah we've been here before
Two AM and I'm back at your door
Say we're done but we know what that means
We fight and make love when there ain't no in between

Nights like these
Oh baby I just want you close to me
And we can go

Over and over and over and over again
Over and over and over and over again
We're in over and over and over and over our head
Over and over and over and over again

Live in a wasteland, should we give it a rest?
Mixing the feelings and a couple regrets
Now we're wasted, there ain't nothing left
But you can stay and put your head on my chest

Déjà vu, yeah we've been here before
Two AM and I'm back at your door
Say we're done but we know what that means
We fight and make love but there's no in between, we do it

Over and over and over and over again
Over and over and over and over again
We're in over and over and over and over our head
Over and over and over and over again

Nights like these
Oh baby I just want you close to me
Nights like these
Oh baby I just want you close to me
Over and over and over and over again
