

Stick Around

Rak-Su

Swimming in the deep end, I call your name (Can I call your name?)
Don't have all the reasons for you to stay (Not to run away)
You're the one I believe in
Never felt this feeling that I feel right now

I give you the time of day, month and year and eternity
Told you I would never walk away, wanna hear you say the same to me

If it burns down, go inside, would you stick around?
Build it back up from the ground, would you hold me down?
Help me turn my lows into highs into better now
Would you stick around?
If it burns down, go inside, would you stick around?
Build it back up from the ground, would you hold me down?
Help me turn my lows into highs into better now
Would you stick around?

If I'm down and out, would you save me?
And if my bank account is running empty?
Would you try, would you try, would you try
And take care of me, baby?
If both of us are in the dirt and you know I got your back
If I'm overworked and I'm overwork and life ain't cuttin' me slack
Would you try, would you try, would you try
And take care of me, baby?

I give you the time of day, month and year and eternity (Eternity, baby)
Told you I would never walk away, wanna hear you say the same to me (What yo
u gon' say, baby?)

If it burns down, go inside, would you stick around? (Hey, woo!)
Build it back up from the ground, would you hold me down?
Help me turn my lows into highs into better now
Would you stick around?
If it burns down, go inside, would you stick around? (Yeah, yeah)
Build it back up from the ground, would you hold me down?
Help me turn my lows into highs into better now
Would you stick around?

Commitment isn't easy but I want you to know that
If you'll have me, I'll follow you anywhere that you go
Any time that you need me, you know I got you for life
If I'm 10 minutes away, you know I'll be there in five
Girl, I would bend the rules of time, just to be by your side
Just tell me you got my back and promise me you'll never lie
If everything falls apart and I end up back at the start
If I lose everything, tell me that I'll still have your heart

If it burns down, go inside, would you stick around? (Oh)
Build it back up from the ground, would you hold me down? (Yeah)
Help me turn my lows into highs into better now
Would you stick around?
If it burns down, go inside, would you stick around? (Woo!)
Build it back up from the ground, would you hold me down?
Help me turn my lows into highs into better now
Would you stick around?
