

## Switching Sides

Rak-Su

No switching sides, don't change your mind  
Don't live a lie  
Once you decide don't sleep or slide  
Be down for life

Don't switch upon me, don't switch upon me  
Don't say that you staying then just get up and leave  
Don't switch upon me, said don't switch upon me  
There's money to make and we got places to be  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't you switch upon me  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't you switch upon me

Back when we were kids, we were side by side  
Like brothers, you know how it is  
Anytime you needed something I was there on time  
Got your back, thought you had mine  
Whilst I been going tryna find a better situation  
You been talking 'bout me, you been tryna test my patience  
Lying on my name, tryna drag me through the mud  
We weren't even friends, we were supposed to be like blood  
But you switched upon me

No switching sides, don't change your mind  
Don't live a lie  
Once you decide don't sleep or slide  
Be down for life

Don't switch upon me, don't switch upon me  
Don't say that you staying then just get up and leave  
Don't switch upon me, said don't switch upon me  
There's money to make and we got places to be  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't you switch upon me  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't switch upon me

I will never sit back while they switch up  
[?] way too tough here to get brushed  
Days ones [?] be the ones that turned distant  
That's the reason why I keep my distance  
All the times they lied behind my back  
They earned the trust and burned the bridge and that's  
The reason why I keep the tightest pack  
The reason why I win and that's the facts

You can see they're gritting their teeth [?] the difficult shit  
And they never wanna see you win  
As much as they said they wanna see you win  
So shit [?] go get where you need to get  
Just make sure that [?]  
Trust your gut and everything stays cool  
'Cause in business all that matters is you

No switching sides, don't change your mind  
Don't live a lie

Once you decide don't sleep or slide  
Be down for life

Don't switch upon me, don't switch upon me  
Don't say that you staying then just get up and leave  
Don't switch upon me, said don't switch upon me  
There's money to make and we got places to be  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't you switch upon me  
So don't you switch upon me, don't you switch upon me  
Don't you switch upon me, said don't switch upon me
