

# I'll Be There

Rakim

I will always be there  
I always be there for you  
I will always be there  
I'll be there

I'm bout to meet my comrade on the busy Ave where we clash  
Trying to see how much gritty cash this city has  
Meantime harass every bitty that pass  
And then here you come with your pretty ass  
All petite like you make ends meet on Wall Street  
Your for keeps couldn't find a woman more complete  
You got your head on tight and when you talk I like  
For me and you two different walks of life  
I'm in the streets too much I pack the heat too much  
Put too much trees in the Dutch and don't keep in touch  
You try to get in contact I don't respond back  
Where the god at come back smellin' like cognac  
Baby beware I'm tryin' my best to be fair  
Aye yo-the key here is repair this love we share  
Cause if we care we would prepare to see clear  
Eye to eye we here as long as you be there

I will always be there  
I will always be there for you  
I will always be there  
I'll be there

Yo, I'm startin' to understand it you like your evenings enchanted  
Love is bond, organic- restaurants romantic  
Want me to take your hand and take you around the planet  
But I take advantage and take you for granted  
Call collect explainin' why I ain't came yet  
I ain't winnin' the game yet can I get a rain check  
Blow me a kiss in the wind, I'm missin' again  
Don't let your sisters and your friends tell you this is the end  
Talk a hole in your head puttin' bugs in your ear  
Make you role in your bed when your thug ain't there  
Somewhere around ladies know I get lonely and proud  
Open my file baby you should know me by now  
Tryin' to get paid and stay away from old sites  
Find my place in life plus I like to hold mics  
It might be seven whole days and seven whole nights  
But yo it's gonna be alright just hold tight

I will always be there  
I will always be there for you  
I will always be there  
I'll always be there baby

Who said something good won't last forever  
I know too much of any thing is bad iwhateveri  
Long as we have good and bad times together  
Bad times make the good times that much better  
Peaches and cream, diamonds and ice  
You like pieces of dreams you shinin' in the night  
Features of a Queen and your mind frame is tight  
Timin' is right get ready for the time of your life

You speak about stackin' gees and havin' seeds  
Apparently we know it's no guarantee  
But losin' you boo who smooth as you  
You unusual this is for the cool in you  
And for the chill I will forever come real  
Your appeal makes it hard to keep my love concealed  
All it took was one look, one kiss, one meal  
Now come feel, let's make this a done deal

I will always be there  
I will always be there for you  
I will always be there  
I'll be there
