

Levantore

Yeah, it's just ghetto, kid test the devil to hit the next level  
Wish they was a rebel with cerebral metal  
Inflex the bezzle with the peddle to the metal  
In a thug's paradise where love have a price  
So we love for life like thugs love the night  
They sell drugs for ice for the Benz with bug lights  
Some hug mics to the world, hung like parasites  
The likes lethal, the mics lead you  
A sneak preview, watch what we do and what the hood teach you  
I still see through the eye of a needle  
So I can watch people cause slug backwards is evil

Levantore

Yo, what's this? Yo bust this. Yo it's time to up lift  
They think all we do is bust clips and puff splifs  
And plush whips and clutch chips and touch chicks  
Flont rocks like Fort Knox and hog blocks  
Taunt cops with more props and we want not  
Panhandling with your mans and them  
Scrambling, gambling, plans to win  
While the cops clock em, thieves flock em  
Women watch em, traders wanna top em  
Ay yo what's the problem  
Before the narcs knock em opposite playas plot to rob em  
The ghetto got em, my man said it's rough at the bottom

Levantore

Ghetto alert, let's do whatever work to get rid of the curse  
We went from 1st to America's worst  
On this competitive turf, now let's inherit the earth  
There's more prize for one another, and call shots  
12 00 Til the next ball drop  
All year around plus they shuffle non stop  
You think it's rough at the bottom, it's even rougher on top  
My peeps gonna have to reach and turn for me  
And everybody's side of the street'll be celly  
Ain't nothing funny, burn plenty and burn money  
And earn money and watch the century turn 20

Levantore

We all should, from the woods to the big city and the small hood  
Everybody should be welcome to the ball if we all could  
But we fall cause we brawl, yo it ain't all good  
We need to play right, stay tight with ya air alight  
Keep your game tight, no need to play trife  
Get cheese from the daylight to the late night  
And it's shouldn't take death to appreciate life  
Before a lot parish, we got to cherish if Allah let us  
Let's give prop and merits till the block flourish  
In this metropolis, stay on top of this  
You know what the prophet is, be prosperous

Levantore

Now we networking  
Respect the next person, it'll be less hurting  
Or left lurkin, while we kept our dreads working

Connect set for certain, total networking  
Last chance to advance and stash grands  
If you have plans to have fam and mad land  
Own shine, condone crime or hold 9s  
I know what the problem is, killing our own kind  
To my flame throwers, train sober, remain soldiers  
Stay sane so these pretty dames can hold us  
Terror terrain rollers and Range Rovers so the train goers  
Claim your fame, maintain, till your game's over

Levantore
