

# Overdose

Raleigh Ritchie

Let's break up, and I mean it in the nicest way take stock and stop,  
Let's wake up, I haven't seen the light for days I need to clear this place up,  
Clear this place up, time to face up, time to face up to,  
Paradise lost in all its forms we're paying the cost to not conform,  
Real talk is the talk of the living and court will be livid if we don't force civilisation,  
Too many payments missed we'll be out on the pavement if we don't change shit,

Overdose, overload, over time, we overflow  
We should try and go outside coz if we don't  
We'll over grow and overdose it's over though  
It's over when we overdose  
You're my addiction  
But our love is only fiction  
If we're not really living

What do you mean? This can't be life this can't be me this can't be freedom,  
I'm young I'm a dreamer looking for meaning, need that feeling,  
I've been reeling, needing space this is fleeting, this is fleeting,  
I hope it's just a phase, living without you is the darkest place,  
But living with you's proving more than I take,  
Babe I wanna take you for a normal date, fuck these daily takeaways

Overdose, overload, over time, we overflow  
We should try and go outside coz if we don't  
We'll over grow and overdose it's over though  
It's over when we overdose  
You're my addiction  
But our love is only fiction  
If we're not really living

Maybe I'm misguided, maybe I'll be wrong  
If we could just try it, maybe we'll move on  
Too much time together, is pulling us apart  
You say we're forever, but I don't think we are if we...

Overdose, overload, over time, we overflow  
We should try and go outside coz if we don't  
We'll over grow and over dose it's over though  
It's over when we overdose

I'm stopped by addiction  
But our love is only fiction  
If we're not really living
