

Security

Raleigh Ritchie

Every dog has its day
Everyone laughs and everyone pays
Everybody dies, everybody feels pain so why do I feel so weird
Everyone likes a drink, everyone would like to be king
Everybody ties up the wrong things so why do I live in fear

I can't be the only one that feels like they're falling down
I can't be the only one, this can't be the only town
This can't be the only way
I just want to be alright
This can't be the only place
This can't be the place I die

All I know is I want to get out of here
I want to clean my head out
Everything else is clear
I want to get my meds down, is there a cure for me
And when I lay my head down I need security

Everyone feels heartbreak, everyone deals with the ills of fate
Everybody cries, everybody hates blames so why does it hurt so much
Everyone hates themselves, everyone dreams, everybody seeks help
Everyone needs sleep, everybody wants health so why do I feel so rough

I can't be the only one that feels like they're falling down
I can't be the only one, this can't be the only town
This can't be the only way
I just want to be alright
This can't be the only place
This can't be the place I die

All I know is I want to get out of here
I want to clean my head out
Everything else is clear
I want to get my meds down, is there a cure for me
And when I lay my head down I need security

Take me back to somewhere I've been before
When I was young I didn't care cause I was pure
I need to be loved in the same way that I was when I was an age you loved me and I was able to get through a whole day
I was never afraid that I was growing insane that I was with my own brain and God was a more stable prospect
Prospect
More than a concept

All I know is I want to get out of here
I want to clean my head out
Everything else is clear
I want to get my meds down, is there a cure for me
And when I lay my head down I need security
