

## Unicron Loev

Raleigh Ritchie

I get bogged down in the mundanity  
That I see around me when I'm on my feet  
Life's wasted on the living  
And time's wasted on the villains  
Why would I waste all this doubt in my mind?  
When I get this taste in my mouth all the time  
I can't make one decision  
'Cause my mind hates supervision

There's something about you  
That takes my blues away  
Life's nothing without you  
I can't get through the days  
I'll never be cynical  
'Cause you wouldn't have it  
I believe in miracles, I believe in magic  
  
'Cause you're my  
Unicron loev [x4]

When you're around I see rainbows and stars  
I'm hearing sounds, I feel bass in my heart  
You keep my head busy  
And I'm in deep, I'm dizzy  
Each day's like heaven when you're in my arms  
I feel eleven, I feel safe from harm  
Like a child, I'm aimless  
And for a while, I'm weightless

'Cause you're my  
Unicron loev [x4]

'Cause you're my  
Unicron loev [x4]
