I'ma go get it  
Derez De'Shon  
Yeah

You can never tell me what I can't be  
I would get out my spot but that shit ain't me  
If I ain't eatin' then how the fuck I'm 'posed to feed?  
My folks need it, this ain't how it's 'posed to be  
I told my mama I got her, I'ma go get it  
And if I spend my last dollar, just know I handled my business  
I know if I ain't have a penny, you would be with me  
I told my partners I got 'em, I promise I'ma go get it  
I promise I'ma go get it

I promise, I swear, won't lie, can't lie  
Give everything I got so we can make it out  
I won't get tired and I tried to go work it out  
My partners died and I promise it hurt a lot  
Remember nights we would fight, we damn near clipped each other  
The whole world went against us, but we was with each other  
I told you you my brother, I told you we gon' win  
I told you stop the robbin', now you got a ten  
You on the outside lookin' in, you see we doin' it big  
Go'n and do your bid, you know we got your kids  
You know we got your mama, won't fuck your baby mama  
Don't listen to your haters, this shit here from your partners

You can never tell me what I can't be  
I would get out my spot but that shit ain't me  
If I ain't eatin' then how the fuck I'm 'posed to feed?  
My folks need it, this ain't how it's 'posed to be  
I told my mama I got her, I'ma go get it  
And if I spend my last dollar, just know I handled my business  
I know if I ain't have a penny, you would be with me  
I told my partners I got 'em, I promise I'ma go get it  
I promise I'ma go get it

One thing I'm gon' do for sure  
Is take care my children and make sure they don't go through what I done been through before, yeah  
It used to fuck me up every night  
We house to house, used to sleep on the floor  
Glad they wasn't old enough to know  
Glad they wasn't old enough to notice we was broke  
Pain buried deep in my soul  
Tears in my eyes behind these locs  
Tryna find peace is a goal  
I aim, achieve, fighting highs and lows  
Lids low but both my eyes open  
Tunnel vision, that's a double focus  
I ain't been the same and I've noticed  
Walkin' 'round like I'm blindfolded  
My mind keep playin' tricks on me  
So high, I hope I don't OD  
I tried to be all I can be

And all I can be is (Derez De'Shon)

You can never tell me what I can't be  
I would get out my spot but that shit ain't me  
If I ain't eatin' then how the fuck I'm 'posed to feed?  
My folks need it, this ain't how it's 'posed to be  
I told my mama I got her, I'ma go get it  
And if I spend my last dollar, just know I handled my business  
I know if I ain't have a penny, you would be with me  
I told my partners I got 'em, I promise I'ma go get it  
I promise I'ma go get it

I promise I'ma go get it  
I promise I'ma go get it  
I promise I'ma go get it  
I promise  
Shout out to my brother Derez De'Shon  
For blessing me with this verse throughout my incarceration  
You know, real niggas do real shit
