

You Don't Even Know

Ralo

Ralo
Whoo!
Fam Goon!
Let's do it

They don't know what it took
I ain't gon let em take it from me
Young small nigga
In the kitchen makin' [?]
At times, I lied to my girl, and still say "I promise"
You know them times will hurt yo heart just to be honest
Mama told me she love me
Also told me she miss me
Ain't seen her in a minute
I know she feel offended
She don't know that I know she got a drug problem
She won't stay off the powder
She won't let go the bottle
Me and my niggas'll fight, but they my niggas for life
Don't ever give him a gun, if he can't handle a knife
You ever felt that same knife stab you in your back?
Watch who you make your cheese with, [?] racks

You don't even know
You don't know
I promise they don't know
You don't know
You think you know him
You don't really know him
Should've listened to Mom
Remember from a time, she said "them niggas ain't right"
She said "them niggas ain't right"
She was right
"And baby, don't you trust no other woman, be careful witcha homies, remember every moment, we came from eatin' bologna"
They don't know
I promise they don't know
They don't know
I promise they ain't know

Slept in the bando houses
Dirty beds and couches
Went from prayin' for ounces
Thankin' God for bricks
Sold all the nicks
Stealin' cars and shit
How could they think I forgot?
How could I ever forget?
I ain't smell no roses
I pulled up in that Rolls
Pockets about to explode
I came from sleepin' outdoor
Used to [?] everything
Now I [?] everything
[?] said I got bad aim
I'm known to pop at everything
I'm known to fuck up a wedding ring

I fuck ya wife
She wanna cancel the wedding
I only fucked her twice
You think you know your bitch?
You don't know much about her
She said that pussy yours
Then why the fuck I got her?

You don't even know
You don't know
I promise they don't know
You don't know
You think you know him
You don't really know him
Should've listened to Mom
Remember from a time, she said "them niggas ain't right"
She said "them niggas ain't right"
She was right
"And baby, don't you trust no other woman, be careful witcha homies, remember every moment, we came from eatin' bologna"
They don't know
I promise they don't know
They don't know
I promise they ain't know
