

## One Heart

Ralph McTell

I've just been thinking what is wrong with us two  
When things go wrong you know it hurts me too  
When things go wrong it tears us both apart  
It occurs to me we must share one heart, one heart

You and me, babe, got one heart between two  
Yours beats for mine and mine beats for you  
One heart, baby, one heart between us two  
There's so much between us, and yet we still fight  
And we put a little space between us in the bed at night  
One heart, baby, one heart between us two

Sharing the lows, sharing the highs  
We've got to get down before we can rise  
One heart, baby, one heart between us two  
You and me, babe, got one heart between two  
Yours beats for me, mine beats for you  
One heart, baby, one heart between us two
