

## Stuff No More

Ralph McTell

I told you several times before  
Too many nights I spent walking the floor  
I can't take that stuff no more  
I can't take that stuff no more  
Too many nights of walking the floor  
I must have told you 'bout a thousand times before  
I won't take that stuff no more

Me and Uncle Danny we sure felt fine  
Since Uncle Ivor went and fetched us some wine  
I can't take this stuff no more  
I can't take that stuff no more  
It's been too many nights of walking the floor  
I told you 'bout a thousand times or more  
I can't take that stuff no more

Uncle Willie told me before he died  
"Treat your woman good she won't ever crucify ya"  
Take that stuff no more  
You gotta take that stuff no more  
It's been too many nights you spent walking the floor  
You tell her a thousand times before  
That, no, you won't take that stuff no more

I told you several times before  
Too many nights of walking the floor  
I can't take this stuff no more  
I won't take that stuff no more  
Too night nights of walking the floor  
I told you 'bout a thousand times before  
I can't take that stuff no more
