

Runway Runaway

Ram Jam

Late one night, oh me stop fight
Cruising the friendly skies
She looked at me, she said what's bad
I wanna hold you for a while
We must work fast to make it last
Till we meet again
Been shout and scream together
We're only after you

Stay, little runway runaway
Pray, little runway runaway

Come to down with a pass on
Can you look me get my wing
Been talking to no my girl
But another [?]
Burning flames and paradise
Two angels making love
Well, saw right through the heavens
And fly away, love

Stay, little runway runaway
Pray, little runway runaway

If I can't make me living
My head's all in the clouds
I turn around, kiss the lips
And I said loud
Let's make a reservation
To meet again someday
We'll fly away together
And never have to say

Stay, little runway runaway
Pray, little runway runaway
