

Enslaver

RAM

Heed the call
All sacrifice for all
Hide the self and in darkness kill it
Who are you?
What can you do?
Alone you are a worm in the mass you are a dragon

I hunt for the stars in the night
None shall shine
All shall know that wrong is right
The wise are blind

Normalcy standards and rules
Submit and obey or be shunned and rejected
Be a part of this machinery
Adept into it, sabotage will be punished

I hunt for the stars in the night
None shall shine
All shall know that wrong is right
The wise are blind

Enslaver a parasite on mankind
Enslaver lives in your mind
Enslaver question everything and you will find
Enslaver

If you dare to rise above the rest
You will expose yourself to me
Born into bondage
A slave is what you are
With the whip I will make you see

I hate you
Hate what you are
You were born an individual
I live to see you go down
Into the sea of conformity

I hunt for the stars in the night
None shall shine
All shall know that wrong is right
The wise are blind

Enslaver a parasite on mankind
Enslaver lives in your mind
Enslaver question everything and you will find
Enslaver
