

Holy Death

RAM

The shadow work
Takes me away
Away on a journey to places unseen
You wait for me there
At the end of it all
Oh who I long
For your loving embrace

You hear my voice
You grant my wish
Yours is the world
Yours alone
No force can withstand
All things must die
Death offers truth
In this plane of lies

Oh holy death
Oh lady in black
The power is yours forever
Santa Muerte
Queen of the dead
Protector and destroyer

The eagle owl
By your side
Who sees through the night
Oh find those
Who prey on me
They shall fall to your scythe
Let me hear your voice so clear
Echo through my dreams
Kill the archons of my house
Let me hear their screams

I believe
I have seen you
Seen your power alive
I believe
I have felt you
Your darkness has touched my soul

Oh holy death
Oh lady in black
The power is yours forever
Santa Muerte
Queen of the dead
Protector and destroyer
