

Svbversvm

RAM

The dawn is black
You are the light that shall rise
Hear the spark within
Do not congregate
Only lies will speak to the mass

The earth trembles
The heavens shake
Revolution at hand
Only the one will open the gate
You are the gate!

Creator
The touch of your spirit creates
Create to destroy
Creator
Your power is only to blind and mislead
Begone lesser one

The earth trembles
The heavens shake
Revolution at hand
Only the one will open the gate
You are the gate!

Svbversvm
The inversion the inside is out
Imploding all the planes
All passes through
The holy devouring womb
Purify and burn

The earth trembles
The heavens shake
Revolution at hand
Only the one will open the gate
You are the gate!
The lord of illusions falls to his knees
Now stab the heart now!
Your allies are death, fire and truth
Now stab the world now
