

Foreign

Ramengvrl

Remember when we met at that funeral?
Everybody shed their tears but we cynical
We laughed when they said sumthin from the bible
Couldn't tell if it's real or just a recital
After that we went off to watch a movie
You didn't talk much like u on a mileage
Are you a gemini cause you're indecisive
Should've seen all the signs flashin' right in front of me

You might need a visa (ya ya ya ya)
Cause u don't seem like u from here
U might need a visa (ya ya ya ya)
Cause u don't seem like u from here

Boy you foreign
Boy you look so fine
But I got no down time
Trynna read your mind
Boy you foreign
Boy you look so fine
But it's so hard to find
What is on your mind

I'm tryin' tryin' tryin' tryin'
I'm tryin' tryin' tryin' tryin'
(Baby, you know what you sound like?)
(You sound like broken records in my ear)

I wish I didn't give a fuck
But I guess I'm running outta luck
Bro u got me so blind
All night rewind in my mind
Foot in the door we don't do this no more
Either get out or get down on the floor
So what is it?

You might need a visa (ya ya ya ya)
Cause u don't seem like u from here
U might need a visa (ya ya ya ya)
Cause u don't seem like u from here

Boy you foreign
Boy you look so fine
But I got no down time
Trynna read your mind
Boy you foreign
Boy you look so fine
But I got no down time
Trynna read your mind

Ma-ma-mardial
Even with all the bullshit, I've always thought you were the one
But every time you make a move you make me think that I was wrong
Couldn't figure out the way you make me feel
Everything's like a dream, it was all so surreal
Bitch come correct, see this bag, it's Prada
Your attitude it gon' bite u like piranha

Lips so unreal it's smooth like butter
Yea I hate u, you're just like no other

Boy you foreign
Boy you look so fine
But I got no down time
Trynna read your mind
Boy you foreign
Boy you look so fine
But it's so hard to find
What is on your mind
