Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Don't tell me to read 'tween the lines
Treat me good or suffer all the time
I'ma go and prolly get what's mine
I can tell you don't like my kind

But whatever, I'ma just do my own thing
And keep it sane, keep it clean, like I just got out the doctor
I got my prescriptions so you can't say nothing
Wanna see you, wanna meet you in the early morning

Oh, why you talk like that?
You look like a fuckin' mess
All of my friends keep tellin' me you bad news
But I keep want you back

Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Yeah, yeah, been a fan for a minute
But you have been exposed, no rest for the wicked
I should've run away, but it really don't matter
Let's just do bad things that are bad for me together

But you know it ain't forever
So why we gotta bother, stick it out till it's over
They say we young and dumb
So why don't play the part
I ain't gotta be the one of us who break their hearts

Oh, why you talk like that?
You look like a fuckin' mess
All of my friends keep tellin' me you bad news

But I keep want you back

Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Back on my bullshit
I know you know it well
Gimme that good, good
Then tell me go to hell
I'm boutta go all the way
Just to see you like all day

Oh, why you talk like that?
You look like a fuckin' mess
All of my friends keep tellin' me you bad news
But I keep want you back
