

Captain Levi

Ramirez

Genshin

Comin' 'thru the titan
Get low, watch me how I swing my blade
Striking fear up in these suckas'
Have 'em dig up their own grave
I can be your best friend or I can be your enemy
I done been through too much shit
When bustas' try betraying me
Sliding through your fucking hood
I work the blade and do it nice
Creeping out the fucking cuts
And bringing all my haters' fright
Hit 'em with the blade then I sway to the left
If you talk that shit then I aim at his neck
Hit 'em with the knife then I sway to the right
If you talk that shit then I'm ending his night
Oh no, here I go, let me see you hit the flo'
Throw them bows, give me more
Hit 'em with them deadly blows
Captain Levi slayin' shit
Young Genshin with the fucking whip
Sailor Moon up on my dick
You fucking with me and you're bound to get hit
Rollin' through your fucking block
Screaming out "Fuck the ops"
Make a bitch fucking flop
Man this shit don't ever stop
You might be starting waves
But we be starting up typhoons
Fucking with my partners and this shit will be over soon

Bounce, Bounce, Bounce, Bounce, Bounce, Bounce, Bounce
Sell an ounce, ounce, ounce, ounce, ounce, ounce, ounce
Smoke a pound, pound, pound, pound, pound, pound, pound
Start to bounce, bounce, bounce, bounce, bounce
(Let's get 'em) Bounce

Damn I'm with this shit
Shelly Shotty on my dick
Fu flex zone up in this bitch
Come through the spot with the high top air force ones bitch
Swing my blade and I do it nice
I'm dancing on my foes
I'm still killin' through the six with my fucking hoes
