MTM hit em' with the heat

Its the one that's sipping poison  
I came from Hell to destroy em  
Paranoia got me trippin' in the night I'm hearing voices  
As I walk amongst the shadow rise from the sarcophagus  
Man I pull up in my Kappa suit and fuck your bitch like this  
It's the night stalker with the semi-auto bullets never missing  
Guns is blazing, chop a nigga down  
Just watch the hollows hit them  
Swerving off the Percocet cause bitch I got a death, wish  
A wizard with the chopper, let me show you all my magic tricks  
Rain rain, don't go away, I wanna kill another day  
Disguise my evil passions with the mask and watch me mutilate  
Darkness wraps around the earth, I kidnap and I desolate  
Blood is written on the wall, it reads "I came to devastate"

Step into the mind of a psychopathic killer  
You can see the hate inside, I'm the one that's gonna drill ya  
S-s-step into the mind of a psychopathic killer  
You can see the hate inside, I'm the one that's gonna drill ya

Whisper softly in your ear, and let you know that you gon' die  
No salvation in my chambers unheard prayers and demise  
Hoisting the lifeless all over the walls, as you look into my e  
yes, and you let out a cry  
Cockin' the burner push deep in your stomach, the gun smoke wil  
l clear then show me your spine  
Eeny, meeny, miny, moe, I kill a nigga, rob a ho  
Straight beneath the Earth is where I lay deep in the catacombs  
Check the name right off the scroll  
The Caddy hearse, push-ups on chrome  
Carving out another name the graveyard gained another stone

Step into the mind of a psychopathic killer  
You can see the hate inside, I'm the one that's gonna drill ya
