

Chain Swangin

Ramirez

I'm in Montana, puffing on sticky Cali' green
Posted in the cabin while snow coming down, I'm plotting schemes
I'm moving heavy, my Pirellis shifting the Chevy
I make it rain, the money looking like it's confetti
No bitch can phase me, you bought my heart to bring home the gravy
No "Captain Save Me," the gaming sticks, so it's all on baby
I watch your purse first and then your ass last
Rami never make a move unless you talking cash, uh

Chain still swang, bending corners in the 911
Ain't shit change, still a playa' with a deadly weapon
Name your price, I can have it to you in a day
Break her spine, and then I drive a Caddy through the rain
Chain still swang, bending corners in the 911
Ain't shit change, still a playa' with a deadly weapon
Name your price, I can have it to you in a day
Break her spine, and then I drive a Caddy through the rain

Rami a menace, sliding the Caddy bumping tenders
Better keep your game tight, running with a circle of winners
Fuck with pretenders, they'll end up knocking you off endeavors
There's no contenders, gorilla's something you cannot measure
Whippin' Italian, mobbing inside a stallion
Hundred thousand just sitting on my chest, peep the medallion
Suckers imagine a player falling, unraveling
Tryna strip me of winnings, it's honestly kind of flattering

Chain still swang, bending corners in the 911
Ain't shit change, still a playa' with a deadly weapon
Name your price, I can have it to you in a day
Break her spine, and then I drive a Caddy through the rain
Chain still swang, bending corners in the 911
Ain't shit change, still a playa' with a deadly weapon
Name your price, I can have it to you in a day
Break her spine, and then I drive a Caddy through the rain

Bitch, what you shakin'?
Lock it down and keep in rotation
You see me surfing the concrete ocean, mobbing on Daytons
Don't get mistaken, like David Ruffin, you fight temptations
Steady on the hustle, 'cause Rami don't eat eggs without bacon
It's just a struggle, come fuck with me and be puffing bubble
Get it out the rubble, been moving muscle then watch it double
I keep it subtle, I'm like a pit bull, you cannot muzzle
I'm making plays and throwing TD's straight out the huddle
