

REHABILITATION

Now I
Been wasting time waiting for your call
Weak in the knees feeling like I'm going to fall
Head spinning tryna get you off of my mind
Nirvana feels close but I have to up the dose this time
Now I feel lost cause the rattle in my pocket is gone
Still waiting for your call back telling me you have that
Like a rose that died with no life
Intertwined dancing with my vice
But the price you pay for riding this ride is high
Now I'm staring at myself in the mirror and I don't recognize
Tryna tell myself that I gotta stop rolling the dice
