

## THE DEPTHS

Ramirez

Twelve gauge pump shot  
Take a motherfucker down to the depths of hell  
Demons, down south on the creep  
Deep in the dark, that's where we dwell  
Caution, don't fall asleep  
Hollow tip bullets come down on that bell  
Godless, heathens shall reap  
Have him come put you right under the spell  
Cold blooded killa  
The silverback grey gorilla  
The infamous young cap peeler  
The walkin' corpse who's gon' drill ya  
The young grave digger that's puttin' bodies in rivers  
With fingers pullin' the trigger  
Be careful when you hear whispers
