

The Dungeon

Ramirez

Here comes death stepping around the fucking corner
Buckshot take a whiff of this deadly aroma
Bullets come hot like a supernova
Ripping out your skeleton leave witnesses in comas

I'm the motherfucker that you better run from
Gripping on my steel make em feel where I come from
Psychopathic lunatic creeping straight out the dungeon
Halo to your head leave another puppet unstrung
I'm the wicked one, tick tick boom
Have another fucking soul laid on the floor that I consume
Bringing down the ruckus and bring a nigga doom
Stepping out the darkness Armageddon will come soon
Make em bow to the almighty gorilla
Bullets rain causing destruction finger fucking the trigger
Bitch I'm a warlord bringing these suckers all the static
Fucking with my militants I can guarantee it gets tragic
Dropping bombs ain't nowhere you can run to
Lurking through the shadows with a semi and a Glock too
Here's a taste of my chrome-plated nickel
Hit you in your fucking chest, watch your blood drain and trick
le
As I rise from the gun smoke with a fully loaded clip
Have my enemies in sight cock it back and empty it
Never hold a POW they bite the bullet quick
Leave em in the fucking rain black 'n blue and bloody stiff

Here comes death stepping right around the corner
Buckshot take a whiff of this deadly aroma
Bullets come hot like a supernova
Ripping out your skeleton leave witnesses in comas
