Droppin' shells, from the nine-millimeter Glock

Bustin' rounds  
Droppin' shells drop down to the fucking floor  
Them hollow tips in the bullets aimin' at your motherfuckin' dome  
I'm servin' bustas, Genshin came up out the fuckin' crypt  
He sent me this shit, talkin' 'bout, "Aye RAMIREZ kill them niggas quick"  
Goddamn I gotta do it, that legendary Articuno wrist  
Your bitch up in my ear talking 'bout she wanna suck my dick  
Hoe I'm too majestic, who the fuck you think you testin'?  
Better start to count your blessings  
Deepthroat this dick, with no questions  
When I come through, they be stressin'  
Murkin' suckas with [?]  
Throw their bodies in the river  
Keep their souls in my collection, damn  
Pistol-packin', never lackin'  
Murder to the first degree  
I catch your punk ass on the street  
And put you in eternal sleep  
Ain't it so, so crazy, how I lose my mind  
Thinkin' about evil shit  
And losin' track about my time  
I might die tomorrow but I ain't trippin' ready to go  
Killin' the game and I don't give a fuck  
You should already know, yuh
