

Don't You Play With Me

Ramz

(Crumz on the beat)

What you know about gang?
I got man that will do 5 right now
Don't you play with me, even though man's easy
What you know about gang?
My mandems touch road

Yo, cool
All they do is talk and I'm fed up
Run up in your yard, if you diss us
All the fucking money you have, you better give us
25 man deep, you will never miss us or pitch us
They won't let him in the club, he's too vicious
Who's that moving suspicious?
My girl so delicious, you're so ambitious
If we leave the place in a mess, please forgive us
They told us to come outside, it's ridiculous

So, talk is cheap, so show me
We don't do no diss tracks, don't ride out on lonelys
Bro took trips to OT
Hold that for me broski
I've got dogs as well, g
But you don't really know me

What you know about gang?
I got man that will do 5 right now
Don't you play with me, even though man's easy
What you know about gang?
My mandems touch road

'Cause they jet out, we ain't even gotta bring the weap' out
My bro did 6 years straight
He got another 8 in straight, but he's good when he step out
Since [?] in designer, Gucci, Davinci and we got the drillas with the bikers
The fiends done swarmed off, the trap is all hyper
LD did it with a Lyca
Trust me, I'm different with it
Next to [?] don't watch the swag, know that I'm sitting with it
Your main one I'll go missing with it
Side one, I'll go missing with it
Six figures, that's another digit
See, I'm chasing that goal
I really do road, gotta opp two times in a row
Nowadays, I'm getting paid from a show
Nothing ain't changed, Convoy in the middle, that's a pole

What you know about gang?
I got man that will do 5 right now
Don't you play with me, even though man's easy
What you know about gang?
My mandems touch road

Take time, easy no man will change I
Don't think you can take mines

Daytime or late night
You better relax, yeah
Where I'm from, we don't care
You can't disrespect us
[?] like yeah yeah

What you know about gang?
I got man that will do 5 right now
Don't you play with me, even though man's easy
What you know about gang?
My mandems touch road
