

Family Tree

Ramz

That's my family tree
That's my family tree
No bad vibes, just good energy
If you know about about them, then you know about me
So, that's my family tree
That's my family tree
From primary right through secondary
If you know about about them, then you know about me, yeah

20 years deep and still the same company
I ain't never gonna change my company
Momma said "Son, be careful of your company"
'Cause your company shows who you are
I went from nothing to something and still ain't changed
Still gettin' on the bus and the train
Still livin' in the same old place
And still thank God for every breath I take

Like, Mitcham, where I grew up
'Fore I leave my home, I do my shoes up
No spuds, just hugs from my crew love
When we roll to a show, we don't que up
They wanna act like we're friends and they know us
Quick drop from night, yeah they love us
You're the type of person I trust
No questions asked, you just always show up

That's my family tree
That's my family tree
No bad vibes, just good energy
If you know about about them, then you know about me
So, that's my family tree
That's my family tree
From primary right through secondary
If you know about about them, then you know about me, yeah

If I'm eatin', my people are eatin' too
If it's beef, my people are beefin' too
If I'm dyin', my people are dyin' too
I ain't got time, but I'm tryna make time for you
I don't speak anymore, I just make moves
I got my families back for anything they wanna do
So we stay strong every single time when our highs on the lows
Come I promise that we're always gonna get through
