

## ma bizniz trips r ur holidays

Ramz

(169)

Real shit

It's your boy Ramone Rochester, AKA the Mitcham dreamer, you already know, n  
o kizz

Come a long way from the block

Jumped off the plane and went straight to the yacht

Lost track of time even though I had a watch

Listen, I got love for my squad

I accomplished when I'm against the odds

Like, real shit

I can taste the mortgage in my drip

Mm 'cause it's straight off the rocks, straight off the rocks, like

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way

Dropped a track and went straight to the top

It's amazin' to say what I cost, uh

Remember when I had stains on my top and my trainers weren't washed

Never made mistakes and played with the Glock

We went separate ways when you made all your guap

You've been changin' a lot

Get my mum 50K up for a car she could cop

Ah, look, only 10K that it costs

You won't let me tell I'm out the country for a week 'cause your afraid you  
will make all the blogs

That's why I can't use my camera to vlog

Ah, ah, look

I was in my room prayin' for the day to come when I could say that I don't k  
now what it feels like to be takin' a loss

I was at the hospital for my son's birthday, a legend that I have to take ho  
me and lay cot

Come a long way from the block

Jumped off the plane and went straight to the yacht

Lost track of time even though I had a watch

Listen, I got love for my squad

I accomplished when I'm against the odds

Like, real shit

I can taste the mortgage in my drip

Mm 'cause it's straight off the rocks, straight off the rocks, like

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way, check

I don't need to ask to blaze it in the club

You think I'm sexy on the days I look rough

I'm the type of person to probably forgive you, but to trust you again, I'm  
not stupid enough

The situations that make you way stronger in life are the ones when it's mor  
e than tough

Look, I was travellin' the world, I'm meetin' new people 'cause I wanted to

learn new stuff

Never forget who was there when no one was, no one was

No matter how busy someone is, if they still make time then you know that it  
's love, know that it's love

My business trips are your holidays

I bet you would love to swap jobs

They think I'm crazy when they see me speakin' to myself, it's just conversa  
tions with God (Wait there)

Come a long way from the block

Jumped off the plane and went straight to the yacht

Lost track of time even though I had a watch

Listen, I got love for my squad

I accomplished when I'm against the odds

Like, real shit

I can taste the mortgage in my drip

Mm 'cause it's straight off the rocks, straight off the rocks, like

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way

I'm not doing the same old, same old, come a long way

Come a long way, come a long way, come a long way
