

Mad About Bars

Ramz

UK

Merry Christmas, I've got a little present for you right now
Courtesy of me and Ramz
Let's go in
"Mad About Bars"
Ramz has got a little something to say
Cheese

Please don't ring my phone
Please don't ring my phone
Leave a message after the tone, after the tone, after the tone
Woah, please just leave me alone, please just leave me alone
No new friends in my zone, in my zone, in my zone

Fool me once then it's shame on you
Fool me twice then it's shame on me
I'm making bread now so you know that I'm eating right
I ain't letting disrespect slide, I got way too much pride
People think I've forgot them, blown, changed but the only thing changed is my life
You should of played your cards right, you joker
I'm getting wiser and older
Came in the game and now they all talk on my name, you don't know what I've got in my folder
I keep my friends close but enemies closer and don't think 'cause I sing on a track
I won't send your man to the shop or step on the road with a poker
Oooh

Please don't ring my phone
Please don't ring my phone
Leave a message after the tone, after the tone, after the tone
Woah, please just leave me alone, please just leave me alone
No new friends in my zone, in my zone, in my zone

Table's turned bridge's burned
People learnt that I couldn't get schooled
Moonwalking after I check my balance, I just got paid in full
Can't run with a girl that knows what I do, that's a major rule
If I don't get caught call me MJ, I'm a smooth criminal
Yeah, now I'm risk taking, trip taking, money making, no time for a waiter
It's been a year, you're still selling cheese
Is your life ever gonna get greater?
I'm up in studio cooking and serving like a waiter
Now I missed her, phone back later
Play-maker, heart breaker, TMG taker, it's second nature

Please don't ring my phone
Please don't ring my phone
Leave a message after the tone, after the tone, after the tone
Woah, please just leave me alone, please just leave me alone

No new friends in my zone, in my zone, in my zone
