Rewind

Ramz

Them can't play with our energy
No more games, know my enemies
They can't see you, full of jealousy
Got me faded while I'm sipping on this Hennessy
Said be mine
Wish I could rewind
And bring back the time
'Cause there's no second chances
Wish I could rewind

Sometimes I can't make time for you
You already know that's how it is for me
You know it don't mean I wouldn't ride for you
I'm a king, so I need my queen next to me
But we can flex if you wanna be flexing with me
Flirt every night when you're texting with me
Personally you're bringing no stress to a G
Shorty for lunch, no pressure for me

We can do this all night long
Do me right, won't do you wrong
Tell me, where do you belong?
Wealthy times, we're all stations

Them can't play with our energy
No more games, know my enemies
They can't see you, full of jealousy
Got me faded while I'm sipping on this Hennessy
Said be mine
Wish I could rewind
And bring back the time
'Cause there's no second chances
Wish I could rewind

Girl, you ain't a snack, you the whole meal
I can be your slime anytime you feel
Keep you dripping, red-bottoms for your heels
Yeah, if you need that
So kick back and relax, I been grinding
More time I been putting in my writing
Back and forth, girl, I don't wanna be fighting
That's cool, I been on my block shining

We can do this all night long
Do me right, won't do you wrong
Tell me, where do you belong?
Wealthy times, we're all stations

Them can't play with our energy
No more games, know my enemies
They can't see you, full of jealousy
Got me faded while I'm sipping on this Hennessy
Said be mine
Wish I could rewind
And bring back the time
'Cause there's no second chances
Wish I could rewind

Them can't play with our energy
No more games, know my enemies
They can't see you, full of jealousy
Got me faded while I'm sipping on this Hennessy
Said be mine
Wish I could rewind
And bring back the time
'Cause there's no second chances
Wish I could rewind

Running on my own two feet
Got you feeling like I didn't ever make no time for you, girl
I know I been tripping for a minute, yeah
Lately I been stone cold
Still wanna make this work, though
Wish I could rewind, oh
And bring back the time
Wish I could rewind
