Ramz

I'm your vitamin c
Girl come and put your hands on me
You don't need to drive yourself crazy
Once a day but you can have it daily

One day I'm in the ends next day I'm on a jet ski
Looking I'm living stress free, Wah mek them warn vex me
Pour me some henny and Pepsi
Drunk or sober, she still gonna text me
It's been 5 minutes and she's tryna undress me
Handcuffs on the bed, she said please arrest me
Looking in her eyes like don't tempt me
Cause 9 months later they'll be twin babies
Push present get you the G63
Take you to 4 countries in one week
Sac de jour, for princess, my baby
I got your back all the way to our eighties
50 for my girl now they think that I'm crazy
My got a ZK, but it's just for safety
Been around for so long how you gon erase me
Haters don't phase me

I'm your vitamin c

I'm your vitamin c
Girl come and put your hands on me
You don't need to drive yourself crazy
Once a day but you can have it daily

No silly little interactions
These girls see how I treat you and now they want a fraction
I got 10/10s sitting there looking for a reaction
I see them on instagram, I'm all up in their captions
Turn on my app limits, no more distractions
Watch me clean up a spot like triple action
I want it all in cash, no bank transactions
A life without money is hard to imagine
I been wearing flares ask Yxng bane about my fashion
I feel like mick jagger and I feel like Micheal jackson
Startup bread, for my girls business, she's got the passion
Anywhere I go, you know I'm always pattern
They always wanna ask me, how I made it happen
Look I got friends that ain't got time for no chattings
And I got friends that managed to make it out and live in mansions
With a chefs that's cooking lobster or salmon
