

Can't Stop

RAN

We got something special going on
We are meant to be together and we know it
I know you do

I knew from the very first time I saw you
That you'd end up next to me

Seems like yesterday
You broke into my heart now you can't seem to go away
But somehow I feel okay
But baby you are my everything

Baby even tho you're right here I feel like I miss you baby
Baby when you're not around I feel you close to me
Baby I'm in love I can't get enough
Even if I can't have you in my mind
I just can't stop
Loving you

Baby I'm in love I can't get enough
Even if I can't have you in my mind
I just can't stop
Loving you

Baby you know how I feel
There's nothing more to reveal
I know you are always be real
If the world stop spinnin' I ain't stopping no

Baby I'm in love I can't get enough
Even if I can't have you in my mind
I just can't stop
Loving you

Baby even tho you're right here I feel like I miss you baby
Baby when you're not around I feel you close to me
Baby I'm in love I can't get enough
Even if I can't have you in my mind
I just can't stop
Loving you
