

Devils Dance

Rancid

Devil's She gonna go
She gonna seek and destroy
She gonna split with the whole damn scene
Make a run
Cause some rebellion
Hustle some cash with the danger eyes (2x)

Danger eyes (I know)
Danger eyes (she goes)
Danger eyes (she's got danger eyes)
Danger eyes (I know)
Danger eyes (she's got the dangerous eye)

Well, an eminent trendy boy loosing the corner
"Let's start over, stay clean", she said
Ideology is a survival up the years
Another being-willing psychobilly
Winchester, four o'clock, through over there
Scandalous, victorious is no longer suspected
Odds are only to her dismay
Raise up, power, love for decay

Devil's She gonna go
She gonna seek and destroy
She gonna split with the whole damn scene
Make a run
Cause some rebellion
Hustle some cash with the danger eyes (2x)

Take real, her lick, it's a whole new night
She had a dream of a sixty foot devil dancing
Saw a blue sky, open hands
Some got guns, he used life as a weapon
Another twilight on the very north ridge
An explosive frown, pay for backache
That it definitely holds you hostage
While death, he comes so primitive
