

# I Kept a Promise

Rancid

I kept a promise  
I kept a promise  
I kept a promise to you

Come closer, my young more  
You're a social punk, fella  
You're a fisherman in contaminated beach front water  
Your mind's in doubt, fella  
And your five foot misses is not forgotten  
But your right foot forward, put your left hand back  
And ya fight for your life

I kept a promise  
I kept a promise  
I kept a promise to you

After the show in Perrington Hall  
We shot a bottle, let me drink it all  
On the roof he looked, add to my dreams and tomorrow  
You told him what you really thought that night  
That music is a gift and it's everything that's right  
I promise that I'll always keep it in my sights  
And I will always fight for our lives

I kept a promise  
I kept a promise  
I kept a promise to you

Just another day, so like that  
We go away to cut stuff  
To the spot where the dealer here promenades  
You see  
Turn your lamp down, we alone  
And I'll always remember you, my brother  
But I'll write for the four, and my left heel back  
And we will always fight for our lives

I kept a promise  
I kept a promise  
I kept a promise to you

I kept a promise  
I kept a promise  
I kept a promise to you

I kept a promise  
I kept a promise  
I kept a promise to you

I kept a promise to you
