Where the middle class breaks up  
The working class better wake up  
When America was dreaming  
Some pigs stole our country

Lulu stands by her family  
With harmony and history  
There's two kinds of stories  
Either comedy or tragedy

Lulu works all day long  
She goes 9 to 5 just to stay alive  
She'll do anything just to walk the line  
Ain't no time to wine and dine

Her war time now in the USA  
Her husband goes far away  
Afghanistan to Iraq  
Her husband now ain't comin' back

America the beautiful  
That's what the sign said  
And I welcome every single one  
Cause I want them all to stay  
And I'll travel and I'll travel  
til my very last day  
Through the New York harbor  
To the San Francisco bay
