

Baby I Love You

Random Encounter

Mmm, yeah
Ooh, baby
Ooh, baby
Ooh, Hoo
Ooh, my baby, yeah
Ooh, Hoo
Mmm, yeah
Ooh yeah
Alright

Hello
No need to be so shy and please don't go
I'm feeling lonely so let's spend the night
Holding hands if you'd like
And we can roam the halls with no one watching
I see
A hidden side of you that looks like me
But baby there's no need to hide tonight
'Cause inside we're alike
And when the lights go out my only dreams are to

Be together
For forever
Everywhere we go
There's nothing to fear
'Cause baby I'm here
And you oughta know

Baby I love you (Baby I love ya)
You're so fine
Baby I love you (Baby I love ya)
I love ya 'cause you're mine, all mine, all mine

No more
I'm through with banging on a closing door
I've played the game and I've been hurt before
And each time I swore
That I would never trust my heart again
Could it be
That you could fix a broken freak like me
'Cause baby I don't wanna be alone
And we'd both always known
That playing hard to get just ain't our style, so

Love me sweetly
You complete me
I can't get enough
And baby I've said
You're in my head
Sending me love

Baby I love you (Baby I love ya)
You're so fine
Baby I love you (Baby I love ya)
I love ya 'cause you're mine, all mine

And nobody sees

Through your eyes more than me
Your voice when you're near
Drowns out all that I hear
I'm head over heels
For your inhuman squeals
There's no other way
All I know is to say

Baby I love you (Baby I love ya)
You're so fine
Baby I love you (Baby I love ya)
I love ya 'cause you're mine, all mine
I love ya (Baby I love ya)
You're so fine
Baby I love you (Baby I love ya)
I love ya 'cause you're mine, all
Baby I love you
