

Companion Cube: A Portal Love Song

Random Encounter

I can tell that you're a simple box
You've no heart besides your painted coat
How could it be you're important to me?
I don't think I could ever let you go...

We're a pair! We're complete as two! (You're all I need!)
We're both portals - You are orange, I'm blue! (indeed, and -)
We are a team - not as strange as it seems. (I will love you!)
Chell, it's true: I will always be your cube! (You're my companion Cube!)

Companion cube... (Use me for your goals!)
You can't be real, companion cube... (Stoke love's burning coals!)
Your hearts of steel, companion cube... (Though I have no soul...)
You make me feel, companion cube... (I can make you whole!)
You're all I've got, companion cube... (Dare to live today!)
You're all I'm not, companion cube... (Carry me away!)
You're in my thoughts, companion cube... (I'm fifty shades of gray!)
We'll always be companions, cube!

I will hold the door for you, (When I feel down - When I'm sad, when I'm blue)
But I pray that you'll take me, too! (I remember... you're with me... companion cube!)
I have no fright from the turrets we'll fight! (Every room... that... we... Pass...)
Only please don't forget companion cube! (Is a chance for our romance to bloom!)

So much warm in my heart when I hold you! (Like a lemon burst into flames...)
And I know love's still alive! (Lights my heart when I hear your name! Your name!)
You're my cube, and will always be. (I will be your friend 'till the very end)
Whether either of us can still survive! (Of the cutscene completing the game!)
Please be my companion cube! (Keep me by your side!)
It's you and me companion cube... (Be my portal bride!)
You make me squee, companion cube... (Love can't be denied!)
For portal 3, companion cube! (Wedding cake's a lie!)
You've done your part, companion cube! (GLaDOS got us wrong!)
You're in my heart, companion cube! (Our love's burning strong!)
