

Objection

Random Encounter

Calls came in approaching midnight

Calls at midnight...

Someone died due to a fall

What kind of fall?

Tell about the fall, please!

Claims were made that Miss Fey shoved him

Miss Fey shoved him?

Here she's seen right afterwards in the hall

Excellent photo!

There's something certainly very wrong - objection!
Where's the face here to ID?

Looks like she's facing the wrong way...

Hold it!

That's her outfit; you can see

It is! That's totally her outfit!

Objection!

Those are clothes!

Who knows who's wearing those robes underneath?

Where's the proof that she was up on the roof?

Oh, here's the shot where she leaves!

What?!

Hey, that's me!

I... have a tendency to sleepwalk

Every killer knows her victim

By and large, that's true

Maya Fey knew Larry Butz

She knew the Butz!

Something smells like Butz here...

Not sure why Ms. Maya picked him

Picked the victim?

But we fear it's clear
That she went nuts

Pretty unlikely
'Cause I can't vet this story yet
Objection!
On arrest was Maya sane?

Now that I think about it...

Hold it!
That's an easy thing to feign

Actually, it's way harder than it looks

Objection!
There's no motive here
Objection! To that idea too!
I'll object to each ridiculous point
Proposed by any of you!

Mr. Wright
Please do desist
Disrupting court!
We get the gist!
No need to constantly insist
"Objection!"

Of course, I know, but

No "take that"s
And no retorts!
No second chance
No last resorts!
I'll hold you in contempt of court!

Correction!
My witness has more to add
Detective, update your testimony

When the night guards found the body...

Poor old Larry...

Led by Oldbag and her team

Such a... shady...

Surly... lady...

It was brought to Dr. Hotti

Dr. Hotti?

Maya was arrested near the scene

That's how it happened!

I'm really, really, sorry but
Objection!
Where's the proof that Larry fell?

Other than the messy chalk outline, pal?

Take that!
There's his ID badge as well

Hold it!

How'd she know the victim went up outside on the roof?

Objection!

If you claim that your defendant's being framed

And if you argue she's to blame

Then all the same I ask you

Where's the proof?

Objection!
