

Deep Waters

Random Eyes

You can rush to your life like madman
from your birth to the grave like flying
Mr. Ego eats more than ever
What kind of Doctor could heal this fever?

If that is all
I won't take any more
I don't see any reason to stay
So many souls
have lost in the dark
What's the meaning of humanity?

If there is a reason in the shadows
before the morning light
If there is an answer
in the deep waters
I'll find it out till the end

Many leaders show wrong directions
Some find reason for a revolution
War is crime and murder
Evil is an endless circle

Angels are singing
They're calling my name
My lifetime is drawing near
Is there something deeper
than all that we see
Something over this mystery
