

Hold Me

Random Eyes

Story of my life, I just wanna feel alright
Could I love again
Could I start anew
Or will I step astray
In my search of love forever?

Hold me, darling
Love me, heal me
'Cos tomorrow it's too late
I'll fly away
Hold me closer
Help me find peace
Release me from this hell I'm feeling

Story of my life, everything just falls apart
I'm afraid again
Lost in my pain
Alone I step astray
Donde estas mi amor

Leave you sleeping
Kiss you leaving
'Cos I don't want to hurt you with my pain
Tears are falling
Love you always
But I have to save you from my endless pain

Hold me, darling
Love me, heal me
'Cos tomorrow it's too late
I'll fly away
Hold me closer
Help me find peace
Release me from this hell I'm feeling
