

Megalomaniac

Random Eyes

You spent all your life
In smoking dreams of despair
'Cos you're losing control
You don't know what to do

Shadows follow your path
Your eyes covered with lies
Lost in silence, trying to reach
For the light

Time is passing by
And I see the sands of time
Timeless
Eternity relief

I know there's a solution
Serenity lives
Where wisdom in silence
Reflects freedom in light

When lost horizons rise again
Run to the hills
In solitude you will face victory

Time is passing by
And I see the sands of time
Timeless
Eternity relief

I know there's a solution
Serenity lives
Where wisdom in silence
Reflects freedom in light
