## Rio De Janeiro Blue

## **Randy Crawford**

The clouds come on creepin' and you got me weepin' this moment I can't believe you're really gonna leave this town Everyone knows, I can't make a move with you You're turnin' my whole world, upside down And I get a feelin' that I've seen the last of you Rio de Janeior blue

The salty air, your wind blown hair, reflections on a dream Thoughts of you with who knows who, flowin' through me like a stream

Brazilian serenades, linger on, on Help me lose my soul, in your song And I get a feelin', that I've seen the last of you Rio de Janeiro Blue, Rio de Janeiro blue

Months go by, I wounder why, I'm left here on my own Could it be my destiny, is to live this life alone These dark and rainy days have turned me cold Long and sleepless nights, gettin' on And I get a feelin' that I've seen the last of you Rio de Janeiro Blue, Rio de Janeiro blue

Rio, Rio de Janeiro blue Long and sleepless nights Rio, Rio
