Randy Houser

I gotta say I don't like where this world's headed
I just don't get it
I don't get it, don't get it

But it's looking a lot like a story I heard from a back pew
In a backroad Baptist church
Shoulda paid more attention
when the preacher man read it

But if I listen to the news and talk radio
Turn on the tube, no matter where I go
The devil's on the move
Working out a plan
To rid the whole wide world

Of the God fearing man
I'm a God fearing man

Breaking my bread at the breakfast table
Bowing my head cause I'm willing and able
Taking the hand of the woman I love
Holding it tighter when the times get tough

Teaching our kids how the good Lord blessed us
Calling out the stuff that the world done messed up
Right is right and God is the answer
Living this life the devil wants to cancel

I gotta look in the eyes of my boys and tell 'em
They ain't no better
No better, no better
Than the kid in the corner looking like a stranger biting on his nails
And counting on his fingers all the change in his pocket
Hell, they ain't no better
Boys, you better know better

Cause they were born who they are with the things that they got
Got people around 'em who love 'em a lot
They'll never look down
On anyone else
Teaching 'em right
Raising 'em well

And breaking our bread at the breakfast table
Bowing our heads cause we're willing and able
Taking the hand of the woman I love
Holding it tighter when the times get tough

Teaching our kids how the good Lord blessed us
Calling out the stuff that the world done messed up
Right is right and God is the answer
Living this life the devil wants to cancel
Yeah, he wants to cancel

Breaking my bread at the breakfast table
Bowing my head cause I'm willing and able
Taking the hand of the woman I love

Holding it tighter when the times get tough

Teaching our kids how the good Lord blessed us
Calling out the stuff that the world done messed up
Right is right and God is the answer
Living this life the devil wants to cancel
Yeah, he wants to cancel

I gotta say I don't like where this world's headed
I just don't get it
I don't get it, don't get it
