

# Make Up Your Mind

Randy Newman

I know how I got in trouble  
I know how I came to grief  
I know why people all over  
Are disappointed with me

When I get up I want down  
When I got thin I want fat fat fat fat  
When I get square I want round  
When I got this I want that

You'd better make up your mind  
You'd better make up your mind  
I understand what you're sayin' to me  
Make up your mind  
But I can't do it

Every time things look good, makes me feel bad  
Each time a little bird of happiness flies by  
It makes me feel so goddamn sad  
I want to cry  
(Make up your mind)

This little piggy went to the market  
And that little piggy got caught up and put in a zoo  
Last little piggy went waa waa waa waa waa  
'Cause he didn't know what he was supposed to do

Comes a time in every man's life  
When he must decide  
Whether he want to drive a bus  
Or just go along for the ride

You'd better make up your mind  
Make up your mind  
I understand you sister  
Make up your mind  
I understand you sister  
Make up your mind  
But I can't do it
