

# I'll Never Get over You

Randy Rogers Band

Yeah I'll still be sitting right here  
Thinking 'bout you, drinking this beer  
Wishing I'd done everything right  
Hoping you'll come back to me one night  
I'll never get over you

You'll do whatever you want to  
You'll make a million friends  
You'll get wherever you're going to  
Yeah you'll fall in love again

But I'll still be sitting right here  
Thinking 'bout you, drinking this beer  
Wishing I'd done everything right  
Hoping you'll come back to me one night  
I'll never get over you

Dreaming that's what I'm doing  
Wasting all of my time  
Oh but it don't matter once you ruin  
The best thing you're ever gonna find

So I'll still be sitting right here  
Thinking 'bout you, drinking this beer  
Wishing I'd done everything right  
Hoping you'll come walking in one night  
I'll never get over you  
I'll never get over you

As long as I live I'll never up  
Thinking I can win back your love

I'll still be sitting right here  
Thinking 'bout you, drinking this beer  
Wishing I'd done everything right  
Hoping you'll come back to me one night  
I'll never get over you

I'll still be sitting right here  
Thinking 'bout you, drinking this beer  
Wishing I'd done everything right  
Hoping you'll come back to me one night  
I'll never get over you  
No, I'll never get over you
