

One Woman

Randy Rogers Band

I don't need empty love words coming from somebody
That'll never love me like you do
I don't need to feel a warm touch from somebody else cause
No other touch could be this true
They can't reach me cause I'm tied to

One woman, you, for me
I know that you're all I'll ever need
Forever beside you, spending my life loving
One woman

Well everything about you inside and out is perfect
Over the edge I always fall
Every time I see you the way I feel reminds me
The world I knew seems so small
Cause now with you I have it all

One woman, you, for me
I know that you're all I'll ever need
Forever beside you, spending my life loving
One woman

Well back when I was selfish
I thought I needed more
But that road led me nowhere
And I closed that door
And now I love for

One woman, you, for me
I know that you're all I'll ever need
Forever beside you, spending my life loving
One woman, you for me
I know that you're all I need
Forever beside you, spending my life loving
