

# Rainbow

Randy Stonehill

Rainbow around my door  
I've seen You here before  
You greet me everyday  
Send the night far away  
Rainbow I've learned Your name  
You saved us from the rain  
Here in Your wondrous light  
I know everything's all right  
When You're near me I can tell  
That You know me very well  
Suddenly my deepest fears  
Disappear  
Oh oh you're my  
Rainbow so bright and true  
And when my life is through  
Please take me by the hand  
Lead me to that Rainbow land  
Rainbow through every storm  
You keep me safe and warm  
Since you shined down on me  
I am free endlessly  
Rainbow you're my friend  
And when the Rainbow ends  
I know you've made a place  
Where I'll see You face to face  
Oh oh you're my Rainbow
