

Walk with Me

Randy Travis

Walk with me through darkness
Every day and every night
Walk with me through the darkness
Walk with me until I reach the light.

We all stumble on life's journeys
We all need a helping hand
From time to time we all wonder
How we fit into your plan.

Walk with me through the darkness
Hold my hand when I am lost
Carry me when the road gets rough
Pick me up each time I fall.

Let your prescence be here with me
Every day and every night
Walk with me through the darkness
Walk with me until I reach the light.

When I am in my darkest hour
And I feel like givin' up
Take this weight from off my shoulder
Fill my heart with your love.

Walk with me through the darkness
Hold my hand when I am lost
Carry me when the road gets rough
Pick me up each time I fall.

Let your prescence be here with me
Every day and every night
Walk with me through the darkness
Walk with me until I reach the light.

Walk with me through the darkness
Walk with me till I reach the light...
