

Humanalogism

Randy

I'd like to take a stand against their morality and destroy this f**king system that we have, to call nationalism and capitalism a socialized freedom rhymes so bad for me. Wake up and resist get a hint of what you missed concerning the environment al care how many of you f**king assholes would even notice the eradication of a animal like an bear? There?s been so many crimes against animals and human rights, so we owe it to ourself to make sure that the health of every single creature on this planet isn?t a stake. I like to point out on all your compunctions and call out on all concerted needs, a big conspiracy revolution and riot to get this f**ked up system deceased. I like to dedicate this f**king song to nature and confront all stupidity. i just can?t walk around and pretend anymore, i cant supress these things i feel . Every time i see the news, its not often but the few times that i do, it all become so clear to me. All humans are a big disease who never get pleased. lets take one last picture and say cheese!!
